

Gamified Training for personal productivity and time management - Get things done in an effective way -

Gamification Storyline:

In this Serious Business Game Training you take on the role of Robert Wise, a history professor whose task it is to find the treasure of the Order of Wisdom.

You will experience the life of this character in 21 virtual days and learn to better manage your time in different areas. For this purpose, you will have various tools at your disposal, such as your calendar, task lists, e-mail and mobile phone.

You will travel the whole world in search of traces and get to know the different members of the Order who will tell you something about the secrets of personal productivity (in the form of lessons and reading texts). With what you learn, you will then try to find the treasure.

Triskelion is the serious business game for time management and personal productivity. Since its launch in 2011, Triskelion has enabled over 1,200 companies and their employees to improve their time management. Due to the high demand, in 2021 the business game training received a complete relaunch in simplified access technology and further improved simulation. Triskelion is now available with the latest multidimensional simulation technology.

Effective and practical learning in operative situations and daily time management

Content overview:

In four levels of training, Triskelion fosters effective learning by enabling users to practice the key skills needed to improve personal time management and productivity:

- ✓ Learn to set and plan goals, and discover strategies for meeting them.
- ✓ Establish your own personal productivity system to improve in decision-making, reducing your workload, managing your email more efficiently and performing tasks more effectively.
- ✓ Learn to refine your focus and concentration to achieve higher efficiency
- ✓ **Step by step**, using case studies and simulations, we will introduce you to methodical approaches that will help you to improve your work activities in the team with effective communication. Consciously train your time management and cooperation skills, which are even more required in remote team-work and agile process management nowadays to raise your performance in- and outside of the team.

Objectives | Why Triskelion?

Triskelion is designed for all professional profiles, especially for those who want to develop their skills and competencies for time management, efficiency and productivity. The training is applicable and useful in both professional and personal environments.

Thanks to this course:

- ✓ Learn how to plan, prioritize and achieve goals to reduce stress and simplify your work and life.
- ✓ Discover tips and techniques for managing your day-to-day tasks and making the best decisions possible.
- ✓ Use tools in practice that can improve your efficiency, increase your performance, and avoid procrastination.
- ✓ Improve your performance precision and speed as well as your concentration to boost your productivity.

Methodology

The developed game-based learning method is a combination of **3 elements**:

- ✓ **High quality content** equivalent to a two-day on-site course, with a strong practical focus that is useful and directly applicable to the work
- ✓ The **use of gamification techniques** in terms of story telling, ranking motivation, scoring, different learning and game levels, and incentives through recognition and awards. This makes the training a motivating and exciting learning experience. This directly promotes the intrinsic motivation to learn on your and your employees' side.
- ✓ **Practical exercises** that allow you as a participant to practice directly in a safe and motivating environment and to implement the practical knowledge. You will **receive detailed feedback** in the form of individual learning loops.

How do you make it work? What are the IT requirements?

1. **The only thing you need** to use this business game training is an end device with internet access.
2. You can **access our performance-optimised business game platform** at any time, from anywhere in the world via your individual user profile or integrate the business game training into your LMS (Cornerstone, Moodle, SAP Success Factors, etc.).
3. You will receive regular reports on the progress of your participants and training groups. This allows you to always keep an overview and motivate your teams in a goal-oriented manner.
